Summary: Hey guys Elena here! I know you guys are getting tired of my poems but I thought that this might give everyone some insight on how Relena feels about Heero! I will honestly admit that I am in pretty much same position as her and it is one of the hardest

Step Into The Sea

Hey guys Elena here! I know you guys are getting tired of my poems but

>I thought that this one might give everyone some insight on how Relena feels
>about Heero! I will honestly admit that I am in pretty much same position

>as her and it is on of the hardest things I have ever been though! Thanks to
>all those who reviewed my last poem!!!

>
Step into the Sea

>
I hate you.

>And yet I love you too.
You confuse me

>Amuse me
You make everything a blur

>
I know from me you will always run

>And each time my heart and soul come undone
I despise you

>Disgust you
Disappoint you

>And stay in your way

>It hurts me so much
When I look into your cold angry eyes

>It tears me apart
It constantly makes me cry

>
You are the needle that pricks my finger

>Cause a storm to form
That makes the blood flow

>That trickles like the tears of all those who mourn

>For you, yes you, these tears I shed
From loneliness and darkness take my hand and you will be lead

>And sheltered by the soft brushing of an angel's wings
Bathed in endless rays of hope and compassion, shining, sparkling, glittering, like Heaven's golden rings

>With each advancing step I take
I take them with faith, determination, and strength for both our sakes

>You may shatter and rip apart my heart as many times as you
like
For you see my spirit will remain unbroken as long as god
gives me the air I breath and the loving heart to keep you always
within my sight

>
You try to resist and push me away

>You are afraid and wish from fate and destiny's winds to
stray
But I will not step back, for by your side I will always
stay

>I want to help protect your vision and let you experience life's
aurora and colorful array

>Only I truly know how wonderful and amazing you are
The sun kisses
your face

>Stars admire you from afar
And moonbeams caress your cheek

>While the misunderstood travelers know it is you they seek

>I look into your eyes and marvel and the vibrations of your
soul
Fire and ice dancing and flickering in you posses only one
goal

>As the sea continues to rage and thrash restlessly below
It is in
that perfect moment I see

>That it is there you want to invite me in and allow those untamed
wild icy waters to drown me
But I take your hand and like a misty
vision or hazy dream I step on shore

>Past is the gentle cool wind that blows and whispers to me from
behind urging me forward
Present is the grainy, damp, sticky sand
on which I stand looking out onto Horizon's golden fleece canvas and
on it the sunset, you, where I want to move toward

>Future is the beckoning waters of uncertainty that are always
changing in motion, as they yearn for me, beg for me to join them in
their earnest, pure flowing

>I step into you and your ocean
As night drops her holy, moth
eaten, but velvety cloak not another word is spoken

>You have realized it now and opened your eyes
It was not me at
all you wished to defy

>But you feelings for me that churned and burned leaving a lifelong
scar
That is proof enough you will never allow anything to mar

>our beautiful love
That's grace can be measured to that of a
dove's

>Something that is treasured above
Death and Time will never tear
us apart

>For this is forever, you are my eternal mate
And not alone but
together shall we meet at eternity's gate

>And if either passes on before
They will be the ones to open the
door

>
I love you

>From me you will never be free
As they chains around your heart
ripple and fall into despair's sea

>You let me in and are filled with warm light
Like a single tear
drop, a brush of the lips, the silky beat of a butterfly's wings, a
bird in flight

>This is not the end
But only the beginning

>May God bless our paths to cross with each winning
And the
jewelry box of life to keep winding, twisting, and spinning

>Who ever thought that the blending of two hearts, souls, and spirits
could be so beautiful and make life worth living.....

> <p><p>

End
